

HAPPY CHRISTMAS

Dear Friends and Supporters,

As another year comes to an end I take the opportunity to say Thank you to everyone who continued to support us during 2021.

It was another strange year, but thankfully not as bad as 2020. We here in Kenya were able to start the construction of our eye clinic which is now complete, we were also able to welcome some volunteers which was great. We hope that 2022 will bring more visitors and that life will continue to return to some kind of normal for all of us.

In Rombo, Kenya right now we have a drought, the effects of climate change are leaving us struggling at the moment. This is our rainy season and we have had little or no rain to date, as a result, cattle are really struggling to get grass and farms that were planted in expectation of rain have already died. In some areas the smell of rotting carcasses of cows fills the air.

Drought coupled with the pandemic and lack of tourist is bringing many problems. Some of these problems can be fixed by simple changes made by people far away from us who take the time to consider the environment and how what you do in Europe really affects us in Africa. Other problems we need financial support for, either way, I want to thank you all for continuing to support us in whichever way you do, without the love and support of all of you I would not be able to bring about the changes that Light of Maasai has made to date. Every day another child is touched by the generosity of the people far from Rombo who continue to support us. ASANTE SANA.

Wishing you and yours a very happy Christmas and a healthy and peaceful 2022.

Best Regards,

Elaine Bannon
